PROJECT RATIONALE:	
<p>Bangladesh is the most thickly populated country in the world. The population of 170 million people. It has many challenges as known as disaster prone country, regarded as no one climate affected country and suffers from socioeconomics challenges. Therefore, health is one of the major challenges due to lack of food security and education. Since, it has vast population and small mass of land and resource constraint with poverty and disaster, educating people is very tough. Further, people lack healthy lifestyle education. Moreover, for food security, the excess of use of pesticide and fertilizer have degraded soil fertility. This excess fertilizer and pesticides causing health challenges with new diseases including different kinds of cancers Therefore, the initiative will address and promote healthy life style centre through NEWSTART Centre II and operate a small clinic as curative centre.</p>	
PROJECT OBJECTIVES:	
<ol style="list-style-type: none"> 1.To create NEWSTART awareness, knowledge & practice 2. To have outreach health activities 3. To open NEWSTART Centre II cum curative & preventive health clinic for service of community as Centre of Influence (COI) 4. To strengthen SDA Church's health program 5. To operate 10 times mobile clinic service for "hard to reach" churches 	
PROJECT DESCRIPTION:	
<p>The NEWSTRT II (Curative & Preventive) will benefit family and children and women of the community in mentioned districts of Dhaka , Mymensigh, Joypurhat, Gopalgonj and Khajagori in rural as well as urban slam areas. In BAUM Campus corner establish "Friday and Holyday's clinic cum NEWSTRT Center" and engage ASI health professional working outside and other like-</p>	

minded health professionals with honorarium to operate the initiative. Further, the initiative will target needy education institutions to meet health challenges. Also, the initiative will operate 10 times mobile clinics in target areas for community service. Further, initiative will utilize health internees for practicum and experience.

PROJECT BACKGROUND:

The **NEWSTART II** (Curative & Preventive) is burning need for the country considering the health challenges of the country.

The initiative will target for PREVENTIVE and CURATIVE system of health care. It will follow the country's successful model and strategies of community health care **RADDA Barnen & Marie Stopes Clinics** with small charges for income generating and self-sustaining.
